Title Matching

- Strict - Standard numbers, titles, material types, authors, and publication dates must match
- Remove the author requirement from the strict matching rules
- Relaxed - If no standard number is found, allow matches based on title, material type, author, and publication date

If an incoming title matches an existing title:

- Replace the existing title if the incoming title is better
- Skip the incoming title
- Always add the incoming title (may cause duplicate titles; Strict Matching will be used)

Copy Matching

- Skip the incoming copy if its barcode matches an existing copy’s barcode
