Expanded Reviews

Feature Description
Destiny Classic has increased the number of characters you can enter when reviewing materials from 1,000 to 2,000. A new counter tracks the characters.

Feature Information
Patrons can enter ratings and reviews for all materials in Destiny.

To add a review:

1. Go to Catalog > Library Search, and search
2. Click the title.
3. Click the Reviews sub-tab.
4. On the Reviews page, click Add Review.
5. Select the desired number of stars to rate the title:
   - One star: Poor
   - Two stars: Fair
   - Three stars: OK
   - Four stars: Good
   - Five stars: Awesome

6. In the review comments field, type your comments (up to 2,000 characters).
7. Click Save.
Library Manager

Spine Label Improvements

Feature Description
Destiny has added a new label stock, "Zebra 4000 labels. Use it with the Zebra TLP 2824 PLUS printer.

Feature Information
To print spine pocket labels:
1. Go to Reports > Library Reports > Labels.
2. On the Create Spine/Pocket Labels page, select the appropriate options.
3. At the Label Stock drop-down, select Zebra 4000T-83258 (spine-vertical) and click Print Labels.

Note: This label stock prints most successfully when used with Chrome and Firefox web browsers.

</tr>
<tr>
<td>Lost LM</td>
</tr>
</tbody>
</table>

The cover image appears next to the title in the notice.
Destiny Discover

Support for Web Accessibility

Feature Description

In Destiny Discover, improvements have been made to support web accessibility guidelines for the Americans with Disabilities Act (ADA) and the Accessibility for Ontarians with Disabilities Act (AODA). As a result of these improvements, you may notice minor changes to the user interface.

The Destiny Discover Help system has been revamped. You can search for a topic via the Search bar, or click a category button to access commonly used information.
To access the new Destiny Discover system, in the Destiny Discover header, click, and select Help in the slide-out menu.

Destiny Discover

New eBook and Audiobook Experience

Feature Description

The new reader functionality provides for an easier experience to drive more usage of your Follett digital content. It works with existing Follett eBook and audiobook content. Those who use the Destiny Discover app for iOS they will automatically be directed to the new reader experience the first time the user sees the new reader (first usage of a Follett eBook or audiobook). We have included a simple page to introduce them to new functionality.

Highlights on the new reader include the following:

- Follett eBooks are automatically sized for optimal reading experience without the need for pinching and zooming to try to resize an eBook.
- Simplified functions and user interface for note taking, highlighting, and searching within the eBook.
- New support for offline access on Chromebooks.
- Easier process to download and read offline eBooks.
- New export notes functionality – export notes to Google or Microsoft cloud documents.
- New Google search capability (select a word and perform a Google search). It leverages the most popular 1:1 device in K-12 schools.
- Faster and easier-to-use Destiny Discover experience.

Additional resources to support you and your patrons are available in our Resource Center and also from Help when the user has opened an eBook or audiobook.
